

Player Rotation Guideline

Purpose

The purpose of the Player Rotation Guideline is to assist coaches to ensure that all players receive fair court time.

Description

- It is important that all players receive fair court time throughout each game.
- Parents and coaches should remember that some children do not want equal court time and request to be taken off.
- For grading and regular season games the coach should aim for all players to get approximately equal court time.
- For finals games all players must play for some of the game.
- To assist coaches, the Club recommends that coaches have a player list with them (on a notebook or coaching board) and keep a rough running sheet of who has been on and off.
- Some coaches have specific “bench time” events (e.g. missing an open lay up) – these should be limited to U12 and above age groups.
- If parents have concerns that their child is not receiving fair court time, the parent should contact the Ashy Basketball Club committee via the Club’s email address.

Committee Discretion

This guideline can be varied at the discretion of the Ashy Basketball Club committee.
